

Fetch vs Axios

Fetch

- Built-in JavaScript method

- Lightweight, no installation

- Great for simple requests

Axios

- Requires installation

- Automatic JSON transform

- Better error handling

Fetch

Fetch

- Built-in JavaScript method
- Lightweight, no installation
- Great for simple requests

```
fetch('api/data')  
  .then(res => res.json())  
  .then(data => console.log  
    (data))  
  .catch(err => console  
    log(err));
```

Axios

Axios

- Requires installation
- Automatic JSON transform
- Better error handling

```
axios.get('/api/data')  
  .then(res => console:  
    log(res.data))  
  .catch(err => console.error  
    (err));
```
